The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9-10 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 recites "a shuttle elevator shaft" and claims 10 and 12 recite "the plurality of shuttle elevator shafts". The "plurality of shuttle elevator shafts" lacks a positive antecedent basis; further the recitation makes the meaning of claim 10 and 12 very unclear.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by James (1943119).

James discloses an elevator system having a building lobby (street level) and a plurality of sky lobbies F5, F9, F15, etc..... located above the building lobby F1. Each sky lobby is separated by at least one floor. The elevator system comprising:

1. a shuttle elevator 12 located for movement within a shuttle elevator shaft for connecting the plurality of sky lobbies

2. a first plurality of local elevator shafts connecting a first set of sky lobbies wherein each of the plurality of first shafts contain an elevator 3 for providing service to floors F1-F5 located between the first set
3. a second plurality of shafts connecting a second set of sky lobbies wherein each of the second of the local elevator shafts contains an elevator 4 for providing service to floors, F5-F9 located between the second set
4. each of the elevator shafts of the first plurality of shafts is located along a first vertical plane and the second plurality of local elevators shafts located along a second vertical plane; see figure 1
5. the first vertical plane is located adjacent the shuttle elevator shaft; see figure 1
6. the second plurality of shafts are located along a second vertical plane

***Allowable Subject Matter***

The indication of allowable subject matter FOR CLAIM 12 is being held in abeyance until claim 12 is rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 5-8 are allowable over the prior art of record.

***Response to Arguments***

Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
